Future Agenda Items

Increase car count

Review Payout Schedule

Review Points Systems

Comments

Mark King – from FaceBook

I have gone thru the rules and noticed that the roll cage requirements don't account for cars lighter than 3200 lbs. Other race organizations allow cars 2000lbs or less to use 1.5"x0.095" dom. This is for classes like 9,11,5-1600,1/2-1600. Please consider this. thx.
